

The Machine That Enjoys Christmas: Whither Machine Consciousness?

Speaker: Professor Igor Aleksander, Imperial College

BCS Oxfordshire Branch Christmas Lecture 2006

Professor Aleksander will look at progress in AI and the way in which some recent efforts have turned towards computational models of consciousness. He will demonstrate some of his own work visual consciousness based brain modelling. This includes a consideration of emotions - so the machine might indeed enjoy Christmas!

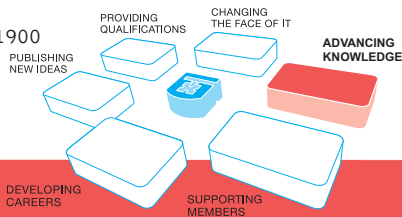

Thursday 7 December 2006

1930 start, refreshments from 1900

Computing Lab

Wolfson Building, Parks Road

Oxford, OX1 3QG

No registration necessary!
