

**IT'S STILL money BUT
NOT AS WE KNOW IT!**

The Changing Face of Payments

Tim Lambertstock, Payments Consultant

Thursday 20th January 2011 - 7:30pm

Oxford e-Research Centre, 6 Keble Road, Oxford, OX1 3QG

Following a long and successful career in government IT, Tim joined VocaLink (then BACS) in 1999 to lead the vision and strategy for future UK electronic payment systems, a programme that won many awards. He went on to develop new payment and related products and to consult on technical, legislative and market developments in payments around the world.

Tim brings this extensive experience of payment systems to this discussion on how we will pay for things in the future as cheques, and maybe even hard cash, begin to be phased out. He will consider online and mobile payments as well as developments in the use of credit, debit and stored-value card products.

The event is free.

Members and non-members are very welcome.

Sandwiches & light refreshments served from 7:00pm.
